## Harmony of the Gospels

**These verses are chosen for the fullest account. This is much like the earliest known harmony the Diatessaron by Tatian in the 2nd century, and variations based on the Diatessaron continued to appear into the Middle Ages. A Gospel harmony is an attempt to collate the Christian canonical gospels into a single gospel account. Gospel harmonies are constructed and studied by scholars to establish a coherent chronology of the events depicted in the four canonical gospels in the life of Jesus, to better understand how the accounts relate to each other, and to evaluate their use of different words. You should, however, read all 4 Gospels to Understand the complete account.**
